

Asilicone Treated Powders

Asilicone Treated Powders

다양한 실리콘 처리 파우더는 뛰어난 물방수 효과를 나타낸다. 이러한 제품은 2way foundation, W/O foundation, 아이섀도우 및 다른 메이크업 제품에 적용할 수 있습니다.

Product name	INCI NAME	CAS No.	Average Primary Particle Size (µm)	Characteristics
TALC LS-61D	Talc, Dimethicone/Methicone Copolymer	14807-96-668037-59-2	7~10	High water repellency. Very silky feel. Also available from factory in China.
TiO2 AS-61D	Titanium Dioxide, Dimethicone/Methicone Copolymer	13463-67-768037-59-2	0.2~0.4	High water repellency. Very silky feel. Also available from factory in China.
TiO2 AS-112D	Titanium Dioxide, Talc, Dimethicone/Methicone Copolymer	13463-67-714807-96-668037-59-2		High water repellency. Very silky feel. Addition of talc prevents aggregation of Titanium Dioxide.
Sericite JS-61D	Mica, Dimethicone/Methicone Copolymer	12001-26-268037-59-2	6~9	High water repellency. Very silky Feel. Small particle size.
Sericite US-61D	Mica, Dimethicone/Methicone Copolymer	12001-26-268037-59-2	11~15	High water repellency. Very silky Feel. Large particle size.
Mica GS-61D	Mica, Dimethicone/Methicone Copolymer	12001-26-268037-59-2	18~21	High water repellency. Very silky Feel. Also available from factory in China.
SUPER MICA DS-61D	Mica, Titanium Dioxide Dimethicone/Methicone Copolymer	12001-26-213463-67-768037-59-2	10~15	High water repellency. Very silky Feel. Mica is coated with ultrafine Titanium Dioxide providing soft focus effect
HYBRID POWDER FS-61D	Talc, Titanium Dioxide Dimethicone/Methicone Copolymer	14807-96-613463-67-768037-59-2	5~10	High water repellency. Very silky Feel. Talc is coated with ultrafine Titanium Dioxide providing soft focus effect.
HYBRID POWDER HS-61D	Talc, Titanium Dioxide Dimethicone/Methicone Copolymer	14807-96-613463-67-768037-59-2	10~15	High water repellency. Very silky Feel. Talc is coated with ultrafine Titanium Dioxide providing soft focus effect.
Brack NS-112D	Iron oxides, Talc, Dimethicone/Methicone Copolymer	1309-38-214807-96-668037-59-2		High water repellency. Very silky Feel. Addition of talc prevents aggregation of iron Oxide.
Red AFS-112D	Iron oxides, Talc, Dimethicone/Methicone Copolymer	1309-37-114807-96-668037-59-2		High water repellency. Very silky Feel. Addition of talc prevents aggregation of iron Oxide.
Yellow RS-112D	Iron oxides, Talc, Dimethicone/Methicone Copolymer	51274-00-114807-96-668037-59-2		High water repellency. Very silky Feel. Addition of talc prevents aggregation of iron Oxide.
SERICITE E-AS5	Mica, Aminopropyl Dimethicone	12001-26-2	7~10	Water repellent powder with moist feel and superior spreadability. Fine adhesive properties. Superior ingredient for 2way foundations, eyeshadows etc.
TALC L-AS5	Talc, Aminopropyl Dimethicone	14807-96-6	7~10	Water repellent powder with moist feel and superior spreadability. Fine adhesive properties. Superior ingredient for 2way foundations, eyeshadows etc.
MICA G-AS5	Mica, Aminopropyl Dimethicone	12001-26-2	18~21	Water repellent powder with moist feel and superior spreadability. Fine adhesive properties. Superior ingredient for 2way foundations, eyeshadows etc.
