Soy

Soy protein은 glutamic acid, aspartic acid등의 산성아미노산이 약 40% 함유하고 있는 점이 collagen이나 keratine과 같은 동물성단백질과 큰차이를 보인다. 그렇기 때문에 보습성은 collagen과 비슷하지만 감촉이 다르고, 보습성을 주고 unruly hair를 방지한다

Product	INCI NAME	Type	Active Matter	Molecular Weight	Origin
WS	Hydrolyzed Soy Protein, Water	Standard Type	25%	700	Soy
WS-H			25%	700	
WS-HQ	Hdroxypropyltrim onium Hydrolyzed Soy Protein, Water	Quarternized Type	25%	900	
WS-HCAQ	Cocodim onium Hydroxypropyl Hydrolyzed Soy Protein, Water		25%	1100	
ESCP-S	Potassium Cocoyl Hydrolyzed Soy Protein	Acylated Type	20%	600	
WS-HSIG	Hydrolyzed Soy Protein PG-Propyl Methylsilanediol, Water	Siliconized Type	20%	900
